# VILLAGE OF JAMAICA BEACH
# MUNICIPAL SERVICES AGREEMENT

I. PURPOSE - The Village of Jamaica Beach Municipal Services is responsible for protecting the drinking water supply from contamination or pollution which could result from improper plumbing practices. The purpose of this service agreement is to notify each customer of the plumbing restrictions, which are in place to provide this protection. The utility enforces these restrictions to ensure the public health and welfare. Each customer must sign this agreement before the Village of Jamaica Beach Municipal Services will begin service. In addition, when service to an existing connection has been suspended or terminated, the water system will not re-establish service unless it has a signed copy of this agreement.

II. PLUMBING RESTRICTIONS - The following undesirable plumbing practices are prohibited by State regulations.
   A. No direct connection between the public drinking water supply and a potential source of contamination is permitted. Potential sources of contamination shall be isolated from the public water system by an air-gap or an appropriate backflow prevention device.
   B. No cross-connection between the public drinking water supply and a private water system is permitted. These potential threats to the public drinking water supply shall be eliminated at the service connection by the installation of an air-gap or a reduced pressure-zone backflow prevention device.
   C. No connection that allows water to be returned to the public drinking water supply is permitted.
   D. No pipe or pipe fitting which contains more than 0.2 percent lead may be used for the installation or repair of plumbing at any connection that provides water for human use.
   E. No solder or flux that contains more than 0.2 percent lead can be used for the installation or repair of plumbing at any connection which provides water for human use.

III. SERVICE AGREEMENT - The following are the terms of the service agreement between the Village of Jamaica Beach Municipal Services (the water system) and _____ (the customer) for the property located at _____.
   A. The Water System will maintain a copy of this agreement as long as the Customer and/or the premises are connected to the Water System.
   B. The customer shall allow his property to be inspected for the possible cross-connections and other unacceptable plumbing practices. These inspections shall be conducted by the Water System or its designated agent prior to initiating new water service; when there is reason to believe that cross-connections or other unacceptable plumbing practices exist; or after any major changes to the private plumbing facilities. The inspections shall be conducted during the Water System's normal business hours.
   C. The Water System shall notify the customer in writing of any cross-connection or other unacceptable plumbing practice that has been identified during the inspection or the periodic reinspection.
   D. The customer shall immediately correct any undesirable plumbing practice on his premises.
   E. The customer shall, at his expense, properly install, test, and maintain any backflow prevention device required by the Water System. Copies of all testing and maintenance records shall be provided to the Water System.

IV. ENFORCEMENT - If the Customer fails to comply with the terms of the Service Agreement, the Water System shall, at its option, either terminate service or properly install, test, and maintain an appropriate backflow prevention device at the service connection. Any expenses associated with the enforcement of this agreement shall be billed to the Customer.

CUSTOMER HEREBY CERTIFIES THAT NONE OF THE ABOVE-MENTIONED PROHIBITED PLUMBING PRACTICES OR MATERIALS HAVE BEEN USED AT THE ABOVE SERVICE ADDRESS.
