

**JAMAICA BEACH 2016-2020 MITIGATION ACTION PLAN**

ACTION	On Going	In Progress	Delayed	No Longer Required	Completed	Completion Date	COMMENTS
JB 2006-1: Implement Beach & Dune Restoration Program.		X					Currently Seeking Easement Documents From Beach Front Property Owners. No Construction Date Scheduled At This Point.
JB 2006-4: Conduct Annual Hurricane Town Hall Meeting.	X						The City Conducts an Annual Hurricane Meeting to Inform Residents Various Hazards. City Will Continue to Provide Annual Threat Information on Hurricane/Tropical Storms, Tsunami and Flooding.
JB 2011-5: Prepare a Drought and Extreme Heat Contingency Plan.		X					The City of Jamaica Beach Executed a Purchased Water Agreement with the City of Galveston. A Drought Contingency Plan Will Be Drafted as an Appendix to Said Agreement. Anticipate Completion of Drought Contingency Plan Late 2020 early 2021.
JB 2016-1: Jamaica Cove Road Survey.					X	5/16/2019	John Mercer & Associates Performed A Survey to Determine if Elevating the Road Would Reduce Future Flooding Impacts. While Raising the Road to 3.5 Feet to match Top of Bulkheads Would Allow Vehicles to Travel on Jamaica Cove Under Moderate High-tides, Overall Mitigation Cannot Be Achieved Unless All Bulkheads are Elevated. Cost to Raise Jamaica Cove to an Average Height of 3.5 Ft is Estimated to Cost \$865,655.00.
JB 2016-2: Purchase and Install Generators for Existing and New Critical Facilities and Infrastructure.	X						The City Has Generators for Essential Operations. Generators Are Located at City Hall, Fire Department, and Waste Water Treatment Plant. City Will Continue to Seek Funding to Upgrade Generators.
JB 2016-3: Mitigate (elevate, reconstruct, acquisition, demolition) Repetitive Flood Claim/Severe Repetitive Loss Properties.	X						City Will Be Seeking Grant Writer to Solicit Disaster Mitigation Funding in 2021 to Begin to Address Repetitive Loss Properties Within Jamaica Beach.
JB 2016-4: Improve Regulations and Permit Requirements to Promote Hazard Mitigation Strategies.		X					The City Council May Consider Amending the Flood Damage Prevention Ordinance to Include a Freeboard Requirement Prior to January 2021.
JB 2016-5: Develop and Provide Public Awareness Campaigns for Natural Hazards.	X						The City Conducts an Annual Hurricane Meeting to Inform Residents Various Hazards. The City Has Representatives from Windstorm Inspections and Texas Windstorm Ins. Provide Building Mitigation Techniques Incorporating Roof and Foundation Supports, Shatter-Proof and High Wind Doors and Windows into Construction Projects. The City also maintains a Flood Information page and Emergency Preparedness page on the City's website. Additionally, the City Maintains an Emergency Messaging System to Alert Residents of Pending Natural Hazards.
